## Looking Up Instructional Delivery Modes & Using the Magnifying Glass Icon

There are several ways to look up and help your student determine which mode of instruction is best for them. This information can be found in the **Batch Dashboard**, the **Online Dashboard**, the **Student CRF**, and the **Advisor CRF**.

Using the **Advisor CRF**, type in the course. Notice PSY 20000 Online is listed as an *Instructional Method* and PSY 20000DIST is a unique course unto itself. Click the **magnifying glass** to see more information about the mode of instruction.

Even though PSY 20000 and PSY 20000DIST are listed as unique courses, advisors should ensure that students are not entering these courses on individual priority lines. Otherwise, the student risks getting into both PSY 20000 and PSY 20000DIST.

Instead, to optimize chances for getting into the course, put one of the courses as an alternative.
