

PURDUE ANIMAL DISEASE DIAGNOSTIC LABORATORY

ADDL RESEARCH

Join the front lines of diagnostic research

WHO?

Undergraduate students associated with a summer research program who are seeking a mentored research opportunity.

WHAT?

The Indiana Animal Disease Diagnostic Laboratory provides prompt, accurate, and reliable diagnosis of animal diseases, including those that may affect the human population. We are the official animal diagnostic laboratory for the state of Indiana. Every day we help veterinarians, animal health officials, livestock producers, and pet owners protect the health of the animal population.

WHERE?

Our main laboratory is located on Purdue's campus in West Lafayette, and our satellite laboratory is located in Dubois County in Southern Indiana.

WHY?

To join our mission: staying at the cutting edge of diagnostic medicine.

HOW?

Contact us at addrsearch@purdue.edu so we can determine if we have an opportunity available that matches your interests.
