**Interdisciplinary Performance, BA**

The Interdisciplinary Performance, BA is degree that prepares students with the skills, knowledge, practices and ethical foundation necessary for success as generative performance artists across a range of creative forms and disciplines. The program equips students to become independent content creators and artist-leaders for performance-based projects. If you are pursuing a Dance Minor, all courses that fulfill the Dance Minor are applicable to the IP major. There are additional requirements including theatre and business courses. IP students will complete a Capstone Project in their senior year which spans two semesters. Students will gain experience and skills in a variety of disciplines: acting, business, choreography, dance, design, directing, fundraising, technical production, textual analysis, and more.

The IP major can be completed in 3 years or be completed as a Degree Plus. Degree Plus is a streamlined, 4-year dual-degree program that gives current and incoming Boilermakers the opportunity to work toward simultaneous undergraduate degrees in the College of Liberal Arts and another school or college. For Degree Plus students, the CLA core requirement is waived.

### **Dance Minor**
