BOARD APPROVED JUNE 7, 2024

Cindy Ream Corporate Secretary

PURDUE UNIVERSITY BOARD OF TRUSTEES EXECUTIVE SUMMARY DEGREE PROPOSAL TEMPLATE

PLEASE NOTE THAT THE FULL ACADEMIC DEGREE PROGRAM SUBMISSION DOCUMENT WILL NEED TO BE COMPLETED FOR THE INDIANA COMMISSION ON HIGHER EDUCATION (see https://www.in.gov/che/academic-affairs/academic-degree-programs/). Both this template and the Academic Degree Program Submission are submitted to the Purdue Board of Trustees. When this form is complete, please save and return to sdunk@purdue.edu with tables as separate attachment.

DATE: 14 Feb 2024 TO: Board of Trustees

FROM: Richard Voyles, Primary Contact, (765) 494-3733; rvoyles@purdue.edu **CC**: Mo Rastgaar, Secondary Contact, (765) 494-8634; rastgaar@purdue.edu

SUBJECT: SoET Robotics Technology MS Degree

CAMPUS OFFERING DEGREE:

ANTICIPATED START DATE: Fall 2024

1. IS THE DEGREE RESIDENTIAL, HYBRID, OR ONLINE?

IF ONLINE, RATIONALE FOR GOING THROUGH SPECIFIC PURDUE CAMPUS—PWL, PFW, PNW, PG

Residential

2. BRIEF OVERVIEW OF DEGREE/WHY IS THE DEGREE NEEDED?

Robotics is a highly interdisciplinary field of study that relies on three foundational pillars: sensing, computing and actuating. Traditionally, these three pillars have been studied in depth in isolation and under separate degrees. Sensors and signal conditioning have been the purview of electrical engineering or electrical engineering technology, computing the purview of computer science, computer engineering, or computer engineering technology, and actuating the purview of mechanical engineering or mechanical engineering technology. As scientific knowledge has advanced, many disciplines have become more specialized. However, the School of Engineering Technology at Purdue has become more transdisciplinary, consolidating computer engineering technology, electrical engineering technology, industrial engineering technology and mechanical engineering technology into one combined school. Robotics is an important field of study that reflects the nature of SoET's faculty and transdisciplinary substance of its curricula. This M.S. program serves two purposes: 1.) robotics is highly in demand from our students, both in-state and internationally and 2.) this serves as an "escape path" for direct-to-Ph.D. students that decide not to finish a Ph.D.

3. BRIEF EVIDENCE OF FEDERAL, STATE, AND REGIONAL LABOR MARKET NEED

There were 1,467 unique job postings at the MS level for CIP code 14.4201 in Indiana from Sept 2021 to Sept 2023. This compares to 108,124 such postings in the United States during the same period. The projected job growth in this area with the United States is 11.8%. However, job growth in this same area for the State of Indiana is projected to be aboput the same at 11.7%. Furthermore, for every 4 MSs hired in this technical area in the State of Indiana, there are, on average, 13 B.S. employees hired by the business community to support the MS-level employees. SoET intends to graduate from 6 to 10 students per year after 5 years – only about 1% of the demand from Indiana, alone, and we plan to continue growing to reach equilibrium in ten years at around 25-40 students. We have letters of support from Eli Lilly and Cummins, which are both in the top four of job posters for Ph.D.s in this field and Cummins is also in the top four for M.S. job postings in this field.

4. COSTS

A. Tuition and Fees—In-state and out-of-state

- B. Financial Projection Table https://www.purdue.edu/provost/policies/iche.html (Tab 1)
- C. Program Review and Expenditure Summary https://www.purdue.edu/provost/policies/iche.html (Tab 2)
- D. Enrollment Projection https://www.purdue.edu/provost/policies/iche.html (Tab 3)

LIST OF SIMILAR DEGREES IN THE PURDUE SYSTEM AND DISTINCTIVE ELEMENTS FOR THIS DEGREE

ME has a professional MS in Robotics Engineering, but no other research-focused MS listed with CIP code 14.4201. SoET already has B.S. programs in robotics, mechatronics, and smart manufacturing, so the M.S. and Ph.D. are next logical steps.

5. COMPETITIVE DEGREES - BRIEF SUMMARY

Many of Purdue's peer institutions already have such degrees, including, Michigan, Minnesota, and Northwestern in the Big Ten and other top-ten national universities including Carnegie Mellon, Penn, and Georgia Tech. Even lesser-ranked institutions such as Oregon State and Northeastern are creating such degree programs, which is increasing their visibility and ability to compete with Purdue for top students and faculty. Adding this program will help get us back on track with peers in the Big Ten and other national top-ten universities. It also represents a perfect complement to the Institute for Physical AI at Purdue and builds on existing strengths in robotics. Finally, the proposed plan of study was developed by an interdisciplinary, university-wide group of faculty from the Polytechnic, Engineering, Science, Agriculture and Health and Human Sciences and represents the inaugural launch of what could become a university-wide commitment to robotics education.

Recommended Approval:	
Rotal of Miles	05/15/2024
Patrick J Wolfe, Ph.D.	Date
Provost and Executive Vice President for Academic Affairs and Diversity Miller Family Professor of Statistics and Computer Science	<i>(</i>
Approved:	
	5.16.24
Mung Chiang, Ph.D.	Date
President Roseoe H. George Distinguished Professor of Electrical and Computer I	Engineering

Notes

For both undergraduate and graduate degree enrollment projections, please carefully consider competitive degree enrollments and how the Purdue program will be marketed in the calculation of enrollment and degree completion projections.

	\$	29,366				

Notes

- (1) New Students represents the anticipated number of *new* students to campus; transfers or existing students are *not* to be included. The Total is set equal to the 'New-to-Campus FTEs' completed in the Enrollment section (I2d).
- (2) T&F must match approved Bursar rates (refer to Bursar website). The calculation should be based on the *Full-Time/ Resident* Student T&F. If the new degree program is primarily Part-Time students, then the T&F needs to be adjusted appropriately for this type of expected enrollment.
- (3) If additional fees are applicable, then each fee must be individually listed above and match approved Bursar rates (refer to Bursar website).

Bursar T&F Website: https://www.purdue.edu/bursar/tuition/index.html

^{*} For the CHE proposal, only identify the nature of the support. It is not necessary to note dollars in the report; however, it should be stated that there is sufficient revenue to cover expenses. Projected surplus/deficit is an aid to identify potential new University revenue, anticipated program costs, and degree substantiality. This does not represent any type of funding request.

FOOTNOTES

I. Enrollment Details

- 1. Program Credit Hours Generated
- 2. Full-Time Equivalents (FTE)
- 3. Program Majors Headcount

II. Incremental Revenue Details

1. Projected # of New Students

2. General Tuition & Fees Assumed no increase

3. Additional Fees - if applicable

III. Expenditure Details

1. Salary and Wages Existing faculty will teach this program; no new hires are planned at this time.

2. Fringes and Fee Remissions 29% was used for faculty and 17.53% for Grad students. The remits are calculated using the current approved rates for an AY graduate

3. Supplies and Expenses Estimates

4. Capital None needed at this time

Table 2 Program Revenue and Expenditure Summary Board of Trustees Table

Purdue WL Campus Robotics Technology MS Degree in SoET/Polytechnic

	Year #1 FY 2025		Year #2 FY 2026		Year #3 FY 2027		Year #4 FY 2028		Year #5 FY 2029	
Total Incremental Revenue*	\$	146,830	\$	264,294	\$	381,758	\$	411,124	\$	587,320
Total Expenditures	\$	73,500	\$	139,870	\$	163,710	\$	168,174	\$	193,135
Projected Program Surplus/(Deficit)**	\$	73,330	\$	124,424	\$	218,048	\$	242,950	\$	394,185

Additional Departmental Footnotes:

^{*}Based on the anticipated number of **new** students to campus; transfers or existing students are not included. Projected incremental revenue is based on the current **full-time**, **resident** tuition and fees approved by the Bursar.

^{**}Projected surplus/deficit is an aid to identify potential new University revenue, anticipated program costs, and degree substantiality. This does not represent any type of funding request.
