

ONLINE COURSE

# SYS59000

## Systems Engineering Processes and Professional Competency

This course prepares students for INCOSE certification, covering topics from the INCOSE Systems Engineering Handbook Including life cycle processes, certification guidance, and essential soft skills for success

**3 CREDITS**

**8 WEEKS**

**SELF-PACED**

The course welcomes online graduate students in engineering, alumni with ABET-accredited engineering bachelor's degrees, and early to mid-career engineering professionals pursuing INCOSE certification.

**Students scoring at least 85% in the course will have the opportunity to bypass the INCOSE knowledge exam**
