

# ENVIRONMENTAL HEALTH AND SAFETY

## FACILITY AND OCCUPATIONAL SAFETY

# NATIONAL SAFETY MONTH

### EHS: Eliminate Hazardous Situations

According to the National Safety Council (NSC), this week focuses on "*identifying risks and taking proactive safety measures to reduce hazard exposure.*"

---

**If you are ever unsure on how to handle ANY safety situation, please contact your supervisor or EHS**

---

FacOccSafety@groups.purdue.edu

#### **Workers have the right to:**

- Receive health and safety training at work in a language they understand
- Work on safe machines
- Receive all required safety equipment and personal protective equipment (PPE)
- Be protected against toxic chemicals
- Report workplace injuries or illnesses
- Review records of work-related injuries and illnesses
- Review the results of workplace SLAMs (Stop, Look, Assess, & Manage) to identify and fix hazards
- Speak up, which can reduce preventable injuries, illnesses and even fatalities
