

ENVIRONMENTAL HEALTH AND SAFETY

FACILITY AND OCCUPATIONAL SAFETY

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Reduce your risk ~ Dress for the occasion

PPE is essential to upholding personal safety at Purdue. Wearing correct PPE reduces your exposure to occupational hazards such as noise, falling objects, dust and hazardous chemicals.

Personal Protective Equipment may include gloves, goggles, hearing protection, steel-toe boots and lab coats.

Know the risks. In your time at Purdue you may come in contact with potentially harmful chemicals and equipment. Understanding the risks and the necessary PPE is an important step in protecting yourself from injury.

Administrative Operations

FacOccSafety@groups.purdue.edu
765-494-6371

Purdue provides PPE to employees to keep them safe from harm. Staff and students have the responsibility to use PPE as directed by the hazard assessments.

If you have any questions regarding the PPE you need and how to use it, ask your PI or supervisor!
