1/31/2025

Hi Student Data Community,

The Spring 2025 Census freeze, Fall 2024 Term End freeze, and the corresponding retention freeze are ready for reporting!

Read below for important data updates.

Best,

Molly Amstutz

Management Dashboard Updates (coming week of 2/3)
- Historical Course
  - Includes a breakout for Purdue in Indianapolis.
- Student Performance
  - Includes a breakout for Purdue in Indianapolis. Former IUPUI Students who have transitioned to Purdue in Indianapolis are excluded from the "Achievement Metrics" tab until after the data fix noted below.
- Undergraduate CODO Student Enrollment and Movement
  - Includes Purdue University Students in Indianapolis and ability to filter on campus.

Report Updates
- See the Obsolete Student Content specification in Data Cookbook which lists replacements for reports that have been removed:
  - New Beginner First Year GPA - TERM END
  - Grade Distribution for students NOT awarded AP credit
  - Grade Distribution for AP Exam takers - Term End
- Most other standard content reports have been updated to include Indy, except those noted below.

Purdue in Indianapolis
- The nomenclature we will be utilizing to describe Indy students is as follows:
  - Former IUPUI Students - these are students who began their studies at IUPUI and are now Purdue in Indianapolis students (previously referred to as: continuing IUPUI students, teach out students, etc.)
  - New Beginners - students who began their studies at Purdue in Indianapolis - this is the same definition as currently used for West Lafayette students. Campus can be used to distinguish between Indy New Beginners and West Lafayette New Beginners.
  - Continuing Students - students who began their studies at Purdue in Indianapolis, but are not in their first semester of studies. This is the same definition as currently used for West Lafayette students. Campus can be used to distinguish between Indy Continuing Students and West Lafayette Continuing Students.

- Classification for former IUPUI Students
  - The classification, total credit hour, and overall GPA information for Indy students is not yet fully validated. As such, we will continue to overwrite the incorrect classification with a placeholder in the Data Digest.
  - Once the Registrar's Office has confirmed that all former IUPUI student records are fully accurate, we will do a data fix to update Fall 24 Census and Term End and Spring 25 Census. This is estimated to occur in the middle of the spring semester, and we will send an update once the work is complete.
  - We will wait until after the data fix to include Indy in the following reports/dashboards:
    - Graduating Class Avg GPA & Credits Earned - Term End PWL
    - Commencement Ceremony Attendance
    - Academic Performance - Term End
    - Course Grade Distribution and Other Courses Taken - TERM END
