

Weekly Overview

You will continue working on your ORP in your groups; the second iteration is due on Saturday. You'll take a quiz over Chapters 5 and 6 in Mertler, which focus on collecting and analyzing data, by Friday. You are free to begin data collection at any time, but it'll likely make the most sense to do so after you receive feedback from your instructor on this week's ORP. Hence, Weeks 4 and 5 are ideal targets for data collection.

Objectives

By the end of this week, you will:
Develop a plan for collecting and analyzing data.

Complete the following Week 3 tasks.

Read the Overview & Objectives.
Complete the Readings.
Complete the Week 3 Quiz: Mertler Chapter 5-6.
Complete the Week 3 Project: Ongoing Research Plan.
