**Disclaimer:** The [2024-25 Purdue West Lafayette catalog](#) is considered the source for academic and programmatic requirements for students entering programs during the Fall 2024, Spring 2025, and Summer 2025 semesters. The Program Progression Guide assists students in the development of an individualized 8-semester plan. Students are encouraged to use this guide and MyPurduePlan\* (an online degree auditing tool) as they work with their academic advisor towards the completion of their degree requirements.

**Notification:** Each student is ultimately responsible for knowing, monitoring and completing all degree requirements.

## Base Laboratory Requirement (BLR) for all Biology Majors

- Each student must complete one course from the “Required Course” list in the chart below. Undergraduate research cannot be used to meet this requirement.
- Students must also satisfy Objectives A and B as listed in the chart below, which can be met by courses, research, or a combination of the two.
- Descriptions of Objectives A and B (not all tasks must be met to satisfy an objective):
  - Objective A** – Demonstrate the ability to plan and design hypothesis-driven experiments, simulations or discovery/observational experiments.
    - Conduct an appropriate literature review for a specific scientific topic.
    - Generate an applicable hypothesis (-es) for your research project.
    - Identify techniques to be used in your project, with justification of those techniques.
    - Write a formal research proposal.
    - Write a detailed outline of experiments.
  - Objective B** - Develop the ability to appropriately analyze, critically evaluate, and depict data. Demonstrate the ability to effectively communicate scientific information orally and in writing, including synthesizing and evaluating scientific literature and putting experimental results in their appropriate scientific context.
    - Analyze data.
    - Use appropriate ways to depict and communicate data (e.g., graphs, movies, images, etc.). Present the research at lab meetings, in a talk, or at a poster session.
    - Write a summary (or summaries) of the data.
- If research is used, the research director will be the one who decides if the research meets Obj A and/or Obj B.
- If research is used, it must include at least four credits of BIOL 49400 and/or 49900. (BIOL 29400, non-BIOL research, and research for pay will not count toward the BLR.)
- Students who successfully complete a Biology Honors Research Thesis automatically meet Objectives A and B with the approved thesis but must still complete a “Required Course.”
- The “Microbiology” and the “Health & Disease” majors must use BIOL 43900 Micro Lab for the BLR; the “Ecology, Evolution and Environmental Biology” majors must use BIOL 59500 Laboratory in Ecology for the BLR.
