

Office of the Chief Financial Officer and Treasurer

February 15, 2024

The Honorable Eric J. Holcomb Governor of the State of Indiana Statehouse Indianapolis, IN 46204

Dear Governor Holcomb:

At its meeting on December 8, 2023, the Purdue University Board of Trustees approved the planning, financing, construction and award of construction contracts for the Burke Boilermaker Aquatic Center Mechanical project on the West Lafayette campus.

Five existing air handling units and condensers that are at end of life will be replaced with new equipment through this project. Supporting infrastructure and equipment will be installed, including pumps and heat exchangers, new chilled water piping and temperature controls. Adjustments will be made to related electrical, mechanical and sprinkler systems.

Heating, ventilation and air conditioning systems will be modernized with improved reliability. Dehumidification will also be improved, and indoor air quality will be enhanced.

The estimated total project cost is \$11,750,000 with \$8,150,000 from Auxiliary Funds – Housing/Dining and \$3,600,000 from Auxiliary Funds – Athletics.

Subject to review by the Commission for Higher Education and recommendation by the State Budget Committee and the Budget Agency, we request your approval to proceed with this project. Attached are the completed forms that the Commission has prescribed for its review of such projects. We will be happy to answer any questions you or your staff may have or to provide any additional information that is needed.

Sincerely,

Christopher A. Ruhl Chief Financial Officer and Treasurer

| Project Cost Jr<br>Since the projec<br>Details section.                    | ustification<br>rt is for mechanical system   | is, there is not a ASF or GS  | F associated with          | the work. This project's scope and cost  | are described more in the Ca | pital Project                   |
| Estimated ann<br>Estimated ann   | ual change in cost of bui<br>ual repair and rehabilita                                    | ding operations based on<br>tion investment (5):                      | the project:<br>\$ 176,250 | \$   |                              |                                 |

(1) Gross Square Feet (GSF)- Sum of all area within the exterior envelope of the structure.

(2) Assignable Square Feet (ASF)- Amount of space that can be used by people or programs within the interior walls of a structure. Assignable square feet is the sum of the 10 major assignable space use categories: classrooms, laboratories, offices, study facilities, special use facilities, general use facilities, health care facilities, residential facilities and unclassified facilities. For information on assignable space use categories, see Space-Room Codes tab.

(3) Projects should include all costs associated with the project (structure, A&E, infrastructure, consulting, FF&E, etc.)

(4) Be consistent in the naming of funds to be used for projects. If bonding, note Bonding Authority Year (1965, 1929, 1927, etc.)

(5) Estimate the amount of funding the institution would need to set aside annually to address R&R needs for the project. CHE suggests 1.5% of total construction cost

(6) If issuing debt, determine annual payment based on 20 years at 4.75% interest rate

- If project is a lease-purchase or lease, adjust accordingly. Note the total cost of the lease in the project cost, and annual payments in project description

Notes:

- Space/Room codes based on Postsecondary Ed Facilities Inventory and Classification Manual (2006)

(1) Identify in a footnote the specific facilities that are included in the data in these columns. Do not include pending approval, non-submitted projects or non-funded projects

Space under construction includes:

- Schleman/Stewart Renovation

- Whistler Mechanical Project

- Ross-Ade Stadium Renovation

- Zucrow High Speed Propulsion Lab

- Brown Family Hall Renovation

- Libraries Study Space Renovation

- University Hall and Related Renovations

- Life Sciences Phenotyping Greenhouse Building

- PMU 2nd Floor Hospitality Renovation

- Mechanical Engineering Building Renovation

Space planned and funded includes:

- Nursing and Pharmacy Education Building

- Northwest Chiller Plant System Improvements

- Vawter Hall Electrical Enhancements and Replacement

- Birck Nanotechnology Center Clean Room Modernization and Related Renovations

- Chilled Water Capacity Enhancement Projects

- Runway 5-23 and Intermediate Connector Taxiway

- Purdue Airport Terminal

- Grant Street Parking Garage Repairs

- Hillenbrand Residence Hall South

- Shealy Hall Roof Replacement

- Shreve Hall Electrical Enhancements and Replacement

- University and Schleman Halls Strategic Transformer Replacement

- Wetherill Lab Drain and Supply Line Replacement Phase I

- Wesley Foundation Property Purchase & Sale

- Chi Omega Sorority Property Purchase & Ground Lease

- Mitchell E. Daniels, Jr. School of Business Building

- Graduate House Parking Garage Demolition and Site Restoration

(1) Spaces to be terminated include general use (recreation) space that will be repurposed as utility space.

(2) There is no assignable space added as part of this project.

### CAPITAL PROJECT COST DETAILS

Burke Boilermaker Aquatic Center Mechanical Project

(1) Cost Basis is based on current cost prevailing as of: (INSERT MONTH AND YEAR)

(2) Explain in the Description of Project Section of the "Cap Proj Details" schedule the reasoning for estimated escalation factors
